To Whom It May Concern:

I am Chairman and CEO of Prima Products dba Polybau, the manufacturer of vinyl windows and window products.

For over 10 years, we have been represented by Christopher Kerosky in virtually all of our legal matters. This has involved representation in litigation, collection matters, issues before the Contractors' License Board and miscellaneous other matters.

I can say without qualification that Mr. Kerosky is a very competent and responsible attorney. He and his firm have provided high quality representation to our firm for this entire period and we continue to use Kerosky & Associates for most of our legal needs.

I highly recommend Kerosky & Associates for the handling of any construction-related legal matter or other legal matter involving the representation of small businesses.

Yours truly,

A handwritten signature in black ink, appearing to read "Jacek Pasternak". The signature is stylized with a large, sweeping initial "J" and a long horizontal line extending to the right.
